Mazda MPV

ZOOM-ZOOM

Stylish fascia design with chrome-ringed instrument dials and sports 3-spoke steering wheel. Satellite navigation system shown is not available in the UK. Alternative systems are available.

The new Mazda MPV.
A people carrier designed to the highest standards.

The design of the new Mazda MPV displays solid athleticism that, combined with the powerful engines and precise handling, delivers a driving experience not common amongst full-size people carriers.

Available with either a responsive 2.3-litre petrol engine or advanced 2.0-litre common-rail diesel engine, Mazda MPV combines spirited performance with frugal fuel economy and low emissions. All this from a car that carries seven people in comfort and style.

Accessed through twin sliding doors, Mazda MPV's spacious rear cabin features individual seats that can be arranged in countless configurations. All have slide and recline adjustment for added comfort and can be folded into useful tables, double-folded to free up more luggage space or completely removed. Rear passengers also have the added benefit of independent controls to the air conditioning system.

But it isn't just the passengers who are well catered for. Take a test drive and experience for yourself Mazda MPV's crisp steering through the leather-covered, 3-spoke steering wheel. You'll also discover its precise gear change, combined with reassuring braking performance and utterly composed ride.

The new Mazda MPV provides an outstanding alternative to more familiar people carriers. And with its exceptional levels of standard equipment it's a surprisingly attractive proposition.

Dynamic styling with new-design chrome grille and jewel-effect head and tail lights. Images show Mazda MPV 2.3. Vehicle shown is not to UK specification and is for illustrative purposes only.
